Gigamon Named a *CRN* Emerging Technology Vendor

Data Access Networking Leader Recognized for Innovative Technology and Commitment to Channel Partners

Silicon Valley, Calif. June 23, 2009 – [Gigamon](http://www.gigamon.com) today announced it has been recognized by Everything Channel as a *CRN* Emerging Technology Vendor. *CRN*'s Emerging Technology Vendor list captures companies that are delivering high margins for solution providers with innovative and easy-to-use technology.

Gigamon, the leading global provider of intelligent data access networking™ products, is committed to quality, excellence and addressing the needs of today's data access networking marketplace. Gigamon's product line, GigaVUE®, consists of data monitoring switches designed to address network security, compliance, availability, reliability and performance by improving monitoring tool efficiency and enhancing the view of the network. Gigamon's commitment to maintaining strategic relationships with monitoring tool partners and providing immediate ROI for end users has attracted new and returning customers in the midst of the economic downturn.

"Solution providers seek out innovative vendors that create new and innovative ideas to help them build revenue and customer loyalty. Our Emerging Tech list is where Solution providers go to find these vendors. We congratulate all of the vendors for their innovation, creativity and commitment to the technology sales channel," said Robert C. DeMarzo, senior vice president and editorial director, Everything Channel.

The vendors who make the *CRN* Emerging Technology Vendor list were founded in 2001 or later, have revenue under \$1 billion and have an active U.S. channel strategy. Final selection to the Emerging Technology Vendor list was made by the *CRN* editorial team after a review of submitted information.

"Being included on *CRN*'s Emerging Technology Vendor list truly validates Gigamon's winning strategy," said Tom Gallatin, managing partner, Sales & Marketing. "With more than five years in the data access networking space, Gigamon's award-winning solutions and channel partners continue to bring value to our loyal customers."

About Gigamon

Gigamon invents and manufactures innovative solutions for data access networks. Its flagship product, GigaVUE®, can support multiple out-of-band monitoring tools for compliance, security, troubleshooting and analysis, sidestepping the hassles presented when too few SPAN ports are available. It also can aggregate, load balance and intelligently filter packets from many SPANs or TAPs to one or multiple tools to solve the problem of monitoring flows across complex mesh topologies and virtual networks. GigaVUE® data access switches significantly reduce customers' capital budgets and yield immediate ROI benefits. For more information about Gigamon and its award-winning solutions, visit www.gigamon.com.

Everything Channel (www.everythingchannel.com, www.channelweb.com)
