**GIGAMON EXPANDS EXECUTIVE TEAM WITH ADDITION OF
EXPERIENCED VETERAN KEVIN JABLONSKI*****Executive Promotion Underscores Company's Commitment to Aggressive Growth
Along with Renewed Emphasis on Intelligent Data Access Networking Innovation***

MILPITAS, Calif., April 5, 2010—Gigamon™, the leading global provider of Intelligent Data Access Networking™, today announced the promotion of Kevin Jablonski to Vice President of Marketing and Business Development. In his new capacity, Jablonski will drive Gigamon's global marketing and business development initiatives as the company expands its channel and product portfolio. While the company benefits from Jablonski's years of experience and expertise, Gigamon's customers can expect an increased commitment to ensuring their data access networking needs are fulfilled with even more innovative products and feature sets. Jablonski's promotion comes shortly after the company's recent funding of \$22.8 million from Highland Capital Partners in its first institutional financing.

"We are experiencing an exciting time both in our company's progress and technology development," said Ted Ho, co-founder and chief executive officer, Gigamon. "Kevin has already proven himself to be an invaluable member of the Gigamon team, and I am confident that his expertise, leadership and vision will help Gigamon achieve explosive growth."

The addition of Jablonski to Gigamon's executive team will support a renewed emphasis on the company's marketing programs and business development initiatives. In his new role, Jablonski will focus on managing the company's strategic marketing campaign, expanding the business relationships and working closely with the sales team on strategic global initiatives.

"I look forward to leveraging my industry experience in working alongside an outstanding Gigamon management team to continue delivering world class, day-one ROI solutions that ensure secure access and complete visibility to all of our customer's data anytime, anywhere," said Jablonski. "As the demand for intelligent data access solutions to enhance network monitoring continues to soar, I welcome the opportunity to help accelerate Gigamon's remarkable growth."

Jablonski joined Gigamon in 2008. He brings nearly three decades of experience to his new role. Jablonski has cultivated and established many lucrative business relationships with large corporations such as HP, Microsoft, Cisco Systems, AT&T and EMC. Prior to Gigamon, Jablonski was the Vice President of Business Development at Anue Systems.

About Gigamon

Gigamon™ delivers intelligent data access solutions to enhance network monitoring of data centers, service provider and enterprises. The company's world-renowned GigaVUE™ aggregates, filters and replicates customized data streams to all monitoring tools. Gigamon pioneered the technology for multi-tool environments, addressing the growing new demands for reporting and analyzing organizational data. Now in its third generation with global deployments in more than 40 countries, Gigamon's GigaVUE platform is the only proven, fully-integrated, total solution for all data access needs. Gigamon's patented technology enables companies to realize ROI on day one by increasing tool value and operational efficiencies. GigaVUE ensures seamless and controlled delivery of the right data at the right time to the right tools. Organizations deploying

Gigamon solutions achieve greater uptime, reduce threat vulnerability and improve regulatory compliance.

Gigamon recently announced its new software application family GigaSMART™ to enhance its award-winning GigaVUE-2404® platform, along with the GigaVUE platform Release 7.0, which delivers increased flexibility by allowing the unique feature of dynamically adding or dropping cross-box connections. GigaSMART is the data access industry's first 10-Gig full line-rate packet modification technology to offer time stamping, network port labeling, slicing and masking. This enables organizations to realize further optimization and efficiencies in performance, security, compliance and analysis monitoring.
